YOU ARE INVITED to the digital opening of this year's ICC International Forum

"The Future of International Supply Chains - Sustainable, Digital, Smart"
on 16 June 2021, 10:00 to 11:30 (CET)

At the Forum we want to take a look at the benefits and the challenges of international supply chains. How do trade conflicts and eventually the COVID-19 pandemic affect supply chains, how can they be made more resilient? How do companies address the issue of corporate supply chain responsibility, which initiatives and measures do they take to protect human rights? Digitalization opens up new business areas in supply chain financing and beyond. Can digitalization also contribute to conserving our resources and protecting our climate? And last but not least: what are the latest trends of the "supply chains of tomorrow"?

Opening of the Forum on June 16:

Welcome by:
Holger Bingmann, Chairman, ICC Germany
Frank Appel, CEO, Deutsche Post DHL

Keynote:
Pamela Coke-Hamilton, Executive Director, International Trade Centre (ITC)

Panel discussion:
- **Ulrich Nußbaum, State Secretary, German Federal Ministry for Economic Affairs and Energy**
- **Norbert Barthle, Parliamentary State Secretary, German Federal Ministry for Economic Cooperation and Development**
- **John Denton, Secretary General, ICC**
- **Frank Appel, CEO, Deutsche Post DHL**
- **Holger Bingmann, Chairman, ICC Germany**
- **Moderation: Oliver Wieck, Secretary General, ICC Germany**
