**Macaristan Otomotiv Toplantısı ve İkili Görüşmeler**
**Video Konferans**

**21 Ekim 2020**

14:00-16.00

**Taslak Program**

Moderatör: Miklós Bujáky : Macaristan İstanbul Ticaret Ateşesi
Onur konuğu: Viktor Mátis Büyükelçi

- 14:00-14.30 Açılış konuşmaları
- 14.30-16:00 İkili Görüşmeler

Toplantı dili : İngilizce

**Macar Otomotiv Firmaları**

**BAY Automotive Research Center**
http://www.bayzoltan.hu/en/home/
The research center develops materials used in automotive industry. We would be interested in meeting
with companies who are producing inner and outer parts of the vehicles.

**Rába:**
http://www.raba.hu/english/
Rába develops steering systems for trucks and tractors, which are used in the U.S. in John Deere tractors
or in Russia Kamaz trucks. We would be interested in meeting with producers of trucks, tractors, or
companies that are working in designing steering systems for large vehicles.

**EVOPRO**
http://www.evopro-group.com/en
Designing automotive and railway diagnostic softwares.

**Prolan:**
https://www.prolan.hu/
Produces railway management systems and produces Electric vehicle chargers. (EVC)
eCon Engineering:
https://econengineering.com/

Distribution of advanced engineering simulation technologies by representing such products as ANSYS,
Moldex3D and Cast-Designer. Beyond the distribution of these software products, they also provide
solid mechanical-, fluid dynamical-, thermal- and electromagnetic analyses, injection molding
simulations, molding optimization and metal casting simulations during the product and design
development of our customers.

**Hajdú Autó:**
https://hajduautort.hu /
Production of exhaust silencers, exhaust components, seat components.

**Kárászy Kft.:**
https://karaszy.hu/
Production of shock absorvers.

**MagyarMet Finomöntode Kft:**
https://magyarmet.com/
Production of steel component parts.

**K &K 95 kft.**
http://www.brakehose.hu/
Production of brake hoses.

**Jász Plasztik**
https://www.jp.hu/en/
Production of batteries and plastic components.
Login Autonom Software:https://login.hu/en.html
Production of employment management software in the automotive production.
